PEDIATRIC NEUROLOGY
Subject Index Volume 23

Abdominal and genital pain, and static magnetic field therapy, 261
Acetylcholine stimulation testing for oligohidrosis caused by zonisamide, 59
Aciduria, 3-methylglutaconic, misdiagnosed as cerebral palsy, 442
Aneurysm
  Detection with computed tomography angiography, 361
  Intracerebral, in human immunodeficiency virus infection, 252
Anterior horn cell disease and olivopontocerebellar hypoplasia, 180
Anticholinergic syndrome, central, responsive to neostigmine, 185
Antiepileptic drug-induced visual hallucinations, 439
Antiepileptic drugs, effects on evoked potentials, 397
Autism, and SPECT, effect of the developmental level, 416

Ballism and antiphospholipid associated recurrent chorea in a child with cerebral palsy, 62
Basal ganglia and thalamus, and linear hyperechogenicity, 129
Behavioral and cognitive behavior problems in chldren with centrotemporal spikes, 391
Biotinidase deficiency, as cause of reversible deafness, 269
Book Reviews
  Pediatric Otolaryngology: Principles and Practice Pathways: R. F. Wetmore, H. R. Muntz, and T. J. McGill/Editors, 91
  Principles and Practice of Sleep Medicine, Third Edition: M. H. Kryger, T. Roth, and W. C. Dement/Authors, 368
  The Facial Nerve: May's Second Edition: Mark May and Barry M. Schaitkin/Authors, 278
  Viral Infections of the Nervous System: Richard T. Johnson/Author, 91
Botulism, infant, biphasic course, 338
Brain lesions, focal, and quantitative proton magnetic resonance spectroscopy, 22
Brains, malformed, and topographical features of sensory-evoked responses, 243
Breath-holding spells, triggering prolonged generalized epileptic seizures, 271

Carbamazepine
  And valproic acid: effects on serum lipids and liver functions, 142
  As treatment for rheumatic chorea, 147
Centrotemporal spikes, and cognitive and behavior problems, 391
Cerebral autoregulation, grading in preterm and term neonates, 236
Cerebral infarction in Menkes' disease, 425
Cerebral palsy
  And antiphospholipid-associated recurrent chorea and ballism, 62
  Misdiagnosed in 3-methylglutoconic aciduria, 442
Chorea,
  Antiphospholipid-associated recurrent, and ballism in a child with cerebral palsy, 62
  Rheumatic, treatment with carbamazepine, 147
Closed head injury, predictive value of proton magnetic resonance spectroscopy, 114
CNS and uterine non-Hodgkin's lymphoma, 69
Cognitive and behavioral problems in children with centrotemporal spikes, 391
Cognitive adaptic test/clinical linguistic and auditory milestone scale (CAT/CLAMS), use in detecting early childhood cognitive impairment, 206
Cognitive impairment, early childhood detection by CAT/CLAMS, 206
Computed tomography angiography, and aneurysm detection, 361
Conscious states, minimal, and vegetative states, life expectancy, 312
Cortical dysplasia, cerebral, assessment by MRI and SPECT, 410
Cortical lesions, localized, in West syndrome, 219
Cyclosporine A neurotoxicity, and idiopathic renal magnesium wasting, 353

Deafness, reversible, caused by biotinidase deficiency, 269
Deletion 14q11.2q13.1 and abnormal myelination, 170
Developmental level, effect in SPECT in autism, 416
DNA analysis, and diagnosis of pediatric neuromuscular disorders, 289
Dysautonomia, familial, and intranasal midazolam, 369
Dysmyelination, disseminated developmental, MRI of in Fukuyama type of CMD, 385
Dysplasia, right occipital cortical, and visual field plasticity, 256

EEG, diffuse epileptic, and eyelid fluttering, 77
Electroretinography, and spasmus nutans diagnosis, 33
Encephalitis, focal enterovirus, and SPECT, evidence for local cerebral vasculitis, 429
Encephalomyelitis, acute disseminated, associated with poliomyelitis vaccine, 177
Encephalopathy, early infantile epileptic, and zonisamide treatment, 341
Epilepsy, intractable localization-related, and transient seizure remission, 328
Evoked potentials, and effects of antiepileptic drugs, 397
Eyelid fluttering accompanying diffuse epileptic EEG induced by eye closure, 77

Fukuyama type of congenital CMD, and MRI of disseminated developmental dysmyelination, 385

Genital and abdominal pain, and static magnetic field therapy, 261
Glutamate
  Receptor subunit 2(3), downregulation in subependymal giant-cell tumor, 37
  Transporters in neonatal cerebellar subarachnoid hemorrhage, 42

Hamartomas, hypothalamic, and left vagal nerve stimulation, 167
Hematoma, traumatic spinal epidural, 88
Hemiatrophy, progressive facial, after epileptic seizures, 164

Hemiplegia
Acute, associated with herpes zoster infection, 345
Alternating, clinical manifestations and long-term outcome, 134
Hemodynamic responses to photic stimulation, 323
Hemorrhage, neonatal cerebellar subarachnoid, and glutamate transporter, 42
Herpes zoster infection, and acute hemiplegia, 345
HPRT gene, new mutations in Lesch-Nyhan syndrome, 332
Human immunodeficiency virus infection, and intracerebral aneurysms, 252
Hydranencephaly, prolonged survival, 80
Hyperechogenicity, linear, within basal ganglia and thalamus of preterm infants, 129
Hypoplasia, olivopontocerebellar, and anterior horn cell disease, 180
Hypothalamic hemartomas, and left vagal nerve stimulation, 167
Hypsarrhythmia, treated with zonisamide, 274

Incontinentia pigmenti, and disappearance of a white matter lesion, 364
Infantile spasms, and localized cortical lesions, 219
Infarction, cerebral, in Menkes' disease, 425
Intranasal midazolam and familial dysautonomia, 369

Lamotrigine monotherapy, 160
Lesch-Nyhan syndrome, and new mutations of HPRT gene, 332
Leukemia, and paraparesis after lumbar puncture, 67
Leukomalacia, periventricular, neuromotor spectrum in children born at term, 155
Leuprolide acetate, and atypical absence seizures inducement, 266
Life expectancy, in vegetative and minimally conscious states, 312
Liver functions and serum lipids, affected by carbamazepine and valproic acid, 142
Lumbar puncture, leukemia and paraparesis following, 67
Lymphoma, non-Hodgkin's, of the uterus and CNS, 69

Magnesium wasting, renal, and cyclosporine A neurotoxicity, 353
Magnetic field therapy, static, for pain in the abdomen and genitals, 261
Magnetic resonance spectroscopy
Proton, and predictive value in pediatric closed head injury, 114
Quantitative proton, of focal brain lesions, 22
Malformed brains, and topographical features of sensory-evoked responses, 243
Melatonin
As treatment for severe sleep disorders, 229
Improves sleep=wake patterns in psychomotor retarded children, 225
Menkes' disease, and cerebral infarction, 425
Metachromatic leukodystrophy, metachromatic, variable onset in a Vietnamese family, 173
Methylglutaconic, 3-, aciduria, misdiagnosed as cerebral palsy, 442
Midazolam, intranasal, and familial dysautonomia, 369
Mitochondrial activity in Pompe's disease, 54
Motor-evoked potentials, and transverse myelitis, 436
Moyamoya disease, 445
MRA and MRI findings, comparison in a variety of neurologic conditions, 307
MRI
And MRA findings, comparison in a variety of neurologic conditions, 307
And SPECT assessment in cerebral cortical dysplasis, 410
And vertigo as a symptom of ocular disorders, 49
Of disseminated developmental dysmyelination in Fukuyama type of congenital CMD, 385
Multiple sclerosis and asymmetric sweating, 74
Muscular dystrophy, Fukuyama type of congenital, and MRI of disseminated developmental dysmyelination, 385
Mutation analysis of 16S rRNA, and Rett syndrome, 85
Myelinated fibers, large, absence in congenital neuropathy, 349
Myelination, abnormal, in a patient with deletion 14q11.2q13.1, 170
Myelitis, transverse, and motor-evoked potentials, 436

Neostigmine, and central anticholinergic syndrome, 185
Neuromuscular disorders, diagnosis in the era of DNA analysis, 289
Neuropathy, congenital, with absence of large myelinated fibers, 349
Nonprogressive neurologic disorder, and XY sex reversal: a new syndrome?, 357
Nystagmus, periodic alternating, in two children with a similar, unusual phenotype, 432

Ocular disorders, vertigo as an underestimated symptom, and MRI, 49
Oligohidrosis caused by zonisamide, and predictive value of acetylcholine stimulation testing, 59
Olivopontocerebellar hypoplasia, and anterior horn cell disease, 180

Pain, abdominal and genital, and static magnetic field therapy, 261
Paraparesis after lumbar puncture, and leukemia, 67
Photic stimulation, hemodynamic responses, 323
Poliomyelitis vaccine, and acute disseminated encephalomyelitis, 177
Pompe's disease, mitochondrial activity, 54
Practice parameters, AAP, for simple febrile seizures, 11
Psychomotor retarded children, improvement of sleep-wake patterns with melatonin, 225

Rett syndrome, and mutation analysis of 16S rRNA, 85

Seizures
Atypical absence, induced by leuprolide acetate, 266
Epileptic, and progressive facial hemiatrophy, 164
Prolonged generalized epileptic, triggered by breath-holding spells, 271
Simple febrile, AAP practice parameter, 11
Transient remission in intractable localization-related epilepsy, 328
Sensory-evoked potentials, topographical features in malformed brain,s 243
Serum lipids and liver functions, affected by carbamazepine and valproic acid, 142
Sex reversal, XY, and a nonprogressive neurologic disorder: a new syndrome?, 357
Shuddering attacks, 421
Sleep disorders, severe, and melatonin treatment, 229
Sleep-related disorders in neurologic disease, 107
Sleep-wake patterns in psychomotor retarded children, improvement with melatonin, 225

Spasmus nutans diagnosis by electroretinography 33
SPECT
And MRI assessment in cerebral cortical dysplasia, 410
In autism, effect of developmental level, 416
In focal enterovirus encephalitis, evidence for local cerebral vasculitis, 429
Steroids or vigabatrin in treatment of infantile spasms, 403
Sweating, asymmetric, and multiple sclerosis, 74

Thalamus and basal ganglia, and linear hyperechogenicity, 129
Tuberous sclerosing complex, and West syndrome, 233
Tumor, subependymal giant-cell, and downregulation of glutamate receptor subunit 2(3), 37

Uterine and CNS non-Hodgkin's lymphoma, 69

Vagal nerve stimulation, left, and hypothalamic hamartomas, 167
Valproic acid and carbamazepine, effects on serum lipids and liver functions, 142
Vasculitis, local cerebral, and SPECT in focal enterovirus encephalitis, 429
Vegetative and minimally conscious states, and life expectancy, 312
Vertigo, an underestimated symptom of ocular disorders, and MRI, 49
Vigabatrin or steroids in treatment of infantile spasms, 463
Visual field plasticity, and right occipital cortical dysplasia, 256
Visual hallucinations, antiepileptic drug-induced, 439
Vitamin B_6-responsive West syndrome, long-term follow-up, 201

West syndrome
And localized cortical lesions, 219
In tuberous sclerosis complex, 233
Treated with steroids or vigabatrin, 403
Vitamin B_6-responsive, long-term follow-up, 201
White matter lesion, disappearance in incontinentia pigmenti, 364

XY sex reversal and a nonprogressive neurologic disorder: a new syndrome?, 357

Zonisamide
As cause for oligohidrosis, and predictive value of acetylcholine stimulation testing, 59
As successful treatment for infants with hypsarrhythmia, 274
As treatment of early infantile epileptic encephalopathy, 341
